# Certified Project Management Professional

Permitted By KHDA

The background image shows a modern interior space. On the left, there is a large wall with a stylized world map made of small lights. In the center, a wall features the 'DEMONT INSTITUTE of MANAGEMENT & TECHNOLOGY' logo in a bold, sans-serif font. To the right, a pool table with a blue felt top and several colorful balls is visible. The ceiling is dark with modern, curved light fixtures and track lighting. The overall atmosphere is professional and contemporary.

## DEMONT INSTITUTE of MANAGEMENT & TECHNOLOGY

### About DEMONT

DeMont Institute of Management and Technology is among the first Technical and Vocational Education and Training (TVET) providers in the UAE. DeMont offers NCFE, CMI, and Pearson programs that are accredited by Knowledge and Human Development Authority (KHDA). We have mastered the art, science, and practice of providing quality UK education with optimum result-centric teaching models that include pedagogical and blended forms of learning. Imparting quality education, offering accredited certifications, and delivering lessons that will alter our students' experience for the better is at the core of our institution's value. DeMont aspires to pave a promising career pathway for all those who walk through the doors of the institution with the desire to learn and grow.

## About

## Chartered Management Institute (CMI)

The Chartered Management Institute (CMI) collaborates with businesses and educational organisations to empower professionals by enhancing their skills, encouraging a confident professional approach to the career of students, and helping shape successful managers and leaders. CMI is the only chartered professional body dedicated to promoting the highest standards of management and leadership excellence.

## Certified Project Management Professional

The Certified Project Management Professional (CPMP) program empowers professionals to showcase their expertise in leading and guiding project teams. Specifically tailored for experienced project managers, this program aims to enhance their skill set, distinguish them in the job market, and unlock their full earning potential.

CMI's professional program offers a comprehensive two-month course designed to empower professionals in their respective fields. By earning the prestigious "Certified Project Management Professional" certificate, participants gain a competitive edge in their careers and open doors to new opportunities. This program accelerates the growth of project leaders across industries while enabling organizations to identify top talent and achieve superior performance.

# Why is **Certified Project Management Professional** right for you

## **Enhance your Professional Profile**

Employers prioritize candidates with CPMP certification, recognizing its value in the field of Project Management. Whether you're a fresher or an experienced professional, adding a CPMP certification to your credentials significantly boosts your resume and opens doors to advanced career opportunities.

## **Expand your Professional Network**

By becoming a certified member, you gain access to a vast community of certified project managers. This offers a unique chance to connect with industry experts, exchange knowledge, and broaden your understanding of the Project Management industry.

## **Master the Global Language of Project Management**

Elevate your job prospects and communication skills by attaining proficiency in the globally recognized language of Project Management through CPMP certification. The course equips you with a robust and time-tested framework, enabling effective communication and problem-solving within organizations. This expertise makes you highly desirable to employers in comparison to non-certified professionals.

## **Meet the Demand for Certified Project Managers**

In a dynamic business environment where project management methodologies are constantly evolving, companies actively seek professionals equipped with the skills and knowledge to successfully navigate complex projects. Being a Certified Project Management Professional places you at the forefront of this demand, making you an asset to organizations seeking qualified project managers.
