

BTEC INTERNATIONAL LEVEL 3

Foundation Diploma in Information Technology

ABOUT PEARSON

Pearson Education is a British-owned educational publishing and appraisal service for educational institutions and corporations, as well as for students directly. It integrates world-class educational content and evaluation, driven by services and technology, to allow more efficient teaching and customized learning. Their mission is to have a direct partnership with millions of lifelong learners and to link education to the way people aspire to live and work each day. They assume that wherever learning flourishes, people do as well

PROGRAMME OVERVIEW

The Pearson BTEC International Level 3 qualifications in Information Technology cater to individuals interested in the IT field, aiming to advance their education through graduate-entry higher-education courses or pursue careers within the IT industry. Students will be exposed to a diverse range of IT subjects, enriching their prospects for higher education in related fields, complementary sectors, or even contrasting sectors, ultimately leading to employment opportunities.
